

31st ACRS Award Winners

1. Shunji Murai Award

Dr. Lee Ken Yoong, Malaysia

Segmentation of dual-frequency polarimetric synthetic aperture radar data for an improved land cover classification

2. JSPRS Award

Mr. J. S. M. Fowze, Sri Lanka

Landslide susceptibility mapping in agricultural land using remote sensing and GIS: A case study in east Java, Indonesia

Ms. T. S. Oyuntsetseg, Mongolia,

Determination of seasonal dynamics in glacier and snow coverage in western part of Mongolia using remote sensing

Mr. Mui-How Phua, Malaysia

Evaluation of recovery potential of forest affected by multiple fires using Quickbird and multitemporal medium resolution satellite data

Ms. Kai-Ling Huang, China Taipei

An interoperable perspective towards the distribution of 3D building data

Ms. Lu Tan, Hong Kong

A GIS-based CBR model for land-use influence

3. Innovation Award

Junichi Susaki, Japan

Development of algorithm to generate three-dimensional urban models in the defense urban areas using airborne lidar

Mr. Nguyen Quang Minh, Vietnam

Image Smoothing of Multispectral Imagery Based on the HNN and Geo-statistics
